

Metinvest leads Top-200 Ukrainian companies rating by Forbes

Metinvest tops the list of Ukrainian 200 largest companies published by Forbes magazine in October 2012.

The list ranks Ukraine's business conglomerates and companies by 2011 net revenues. Metinvest, saw 52% y-o-y increase in sales last year, to UAH 113.4bn, continued to hold the top position in the rating for the second year in a row, since Forbes started to rank Ukrainian companies on annual basis in 2011.

This is the second remarkable award won by Metinvest over recent months, after the Group finished 4th in the Deloitte's Central Europe Top-500 ranking in September 2012.
