

Declaration of Force Majeure for Clients and Partners

Dear Clients and Partners! We regret to inform you that, like many other Ukrainian and Ukraine-related companies, Metinvest companies are facing what we consider to be a Force Majeure situation.

The ongoing hostilities in Ukraine, military blockades of sea ports, destruction or threat to land infrastructures could impair the performance of our contractual obligations. As of 24 February 2022, 05:30 (GMT+2), martial law has been

introduced

all over Ukraine. In addition, the National Bank of Ukraine imposed

moratorium

on cross-border payments, which may also impede our contractual payments into and out of Ukraine.

Please consider the above as a declaration of Force Majeure.

The facts of Force majeure are confirmed by

Letter

No. 2024/02.0-7.1 of the Chamber of Commerce and Industry of Ukraine dated 28.02.2022.
