

Metinvest and Ukrainian Steel Construction Centre to hold II National Steel Construction Market Participants Conference

Metinvest Group and the Ukrainian Steel Construction Centre (USCC) are organizing the II National Steel Construction Market Participants Conference on November 6-7 in Kyiv.

Conference participants will include leading producers and distributors of steel, metal structure fabricators, steel roof and façade systems manufacturers, design and scientific organizations, developers and industry experts.

Topics will include steel construction and raw materials market trends, prospects for steel construction in Ukraine, key steel facility design and construction trends, and the ways to reduce costs and increase return on investment into buildings made of steel.

The event will also offer site visits to steel structure fabricators Staltech (Brovary) and BF Zavod (Boryspil), in addition to a Metinvest service metal centre.

The I National Steel Construction Market Participants Conference took place in May 2012 in Kyiv. This event resulted in establishment of the Ukrainian Steel Construction Centre.

Metinvest is a member of USCC, whose mission is to make steel structures the material of choice for construction.
