

Khartsyzsk Pipe wins Ukraine's 100 best industrial products competition

Metinvest Group's Khartsyzsk Pipe topped the "Industrial and Technical Goods" category in Ukraine's "100 Best Ukrainian Products" quality competition. It was recognized at an award ceremony on 1 November in Kyiv.

Khartsyzsk Pipe was nominated for its 1,219 mm steel longitudinally electric-welded pipes for main pipe-lines with internal and external corrosion resistant coating. These pipes are used in the construction of the Central Asia-China gas pipeline.

The quality of Khartsyzsk Pipe's products has been certified by Zetom Research and Certification Institute (Poland), Petrobras (Brazil), and SAI Global (Canada).

The All-Ukrainian quality competition "100 Best Ukrainian Products" is held by the State Inspection of Ukraine on Consumer Rights Protection, with the support of the president of Ukraine. The competition does not promote brands, but rates enterprises that produce high quality products, whose workmanship can serve as example to others. This year, 246 Ukrainian enterprises submitted 273 goods with food items, and industrial and technical goods to the competition. An expert commission visited the plants and evaluated products on site.
